How did CFP compare with
your expectations?

What career challenges led you to look for a solution like Clarity First?

Managers knew I was smart but it
was hard to distill the key messages
I was trying to make.

How did you make the decision to do this program, why Clarity First?

Attended a short training course and
could see how the program would
help me.

What changes have you seen in your communication?

My communications are much shorter but
have greater effect. They have a
consistently logical easy to understand
format.

What was the most valuable thing about Clarity First?

Learning how to structure
communication to effectively get a
message across.
